

## Ski-PD Transfers 2020.

Getting to Warth is more challenging than some Alpine resorts due to the distance and higher than average snowfall, which makes some roads impassable (NB this is beyond our control, and we have no influence on the local council to clear them faster than they can).

We will arrange for the transfers listed below for groups and the cost will be split depending on the number of passengers.

Please, if you would like to reserve a place on transfer 1 or 2 outward, and transfer 1, 2, or 3 on return, email Catherine with names. This will indicate commitment to that reservation and is non changeable. (If this is left too late the group) transfer may be fully booked.

We understand that other options are more convenient from some regional airports in the UK. Transfers for arrivals and departures other than those above, such as from Innsbruck or Friedrichstafen must be arranged independently. Zurich and Innsbruck are 2.5- 3h. There is an easyjet flight from LGW to Friedrichstafen this year which has a shorter (90min) transfer.
